GRAPHS/CHARTS

The graphs, charts and other visual aids are provided for informational purposes only. None of these graphs, charts or visual aids can and of themselves be used to make investment decisions. No representation is made that these will assist any person in making investment decisions and no graph, chart or other visual aid can capture all factors and variables required in making such decisions.

INDICES COMPARISONS

The returns of several market indices are provided in this presentation for information purposes only and the comparison does not mean that there necessarily will be a correlation between the returns of the Fund, on the one hand, and any of these indices, on the other hand. The indices have not been selected to represent an appropriate benchmark against which to compare the Fund's performance; but, rather, are disclosed to allow for comparison of the Fund's performance to that of certain well-known and widely recognized indices. Reference or comparison to an index does not imply that the portfolio will be constructed in the same way as the index or achieve returns, volatility, or other results similar to the index. The returns of the Fund differ from these various indices in that, among other reasons, the Fund is actively managed and may use leverage. Such indices are unmanaged and are not subject to fees and expenses, including transaction costs, typically associated with private investment funds. In addition, the Fund's holdings may differ from the securities that comprise the indices, and the differences may be material. Investments cannot be made directly in indices and such indices may re-invest dividends and income. Due to the differences among the Fund's portfolio and the performance of equity market indices, no such index is directly comparable to the investment strategy of the Fund.

MODEL RETURNS/BACK TESTING

The backtested hypothetical performance results provided herein reflect the assumptions incorporated in the model as of the date on which the model was prepared. The starting NAV of the fund was assumed to be \$50M. Performance results do not include the deduction of any fees or expenses. Index and rebalancing methodology detailed resulted in the following quarterly holdings: Q1 & Q2 – BTC and ETH; Q3 – BTC, ETH, XRP, LTC, DASH, XEM, XMR, ETC; Q4 BTC, ETH, XRP, LTC, DASH, XEM, XMR, ETC., QTUM, & SRAT, and such assumptions may be based upon data that was not available during the period for which backtested hypothetical performance results are shown. In addition, from time to time, the model may change and there can be no assurance that the current iteration of the model will be employed at any point in the future. The backtested hypothetical performance results are provided for informational purposes only to demonstrate the operation of the Fund and the model and how it may have performed under certain circumstances over the time period discussed herein. The backtested hypothetical performance results do not reflect actual trading of client assets, and actual performance results may vary from the backtested hypothetical performance results due to market conditions and other factors, including, without limitation, varying fees, expenses, borrowing costs and market liquidity. As a result of these and potentially other variances, actual performance results may differ materially from (and may be materially lower than) that of the backtested hypothetical results provided herein.

HYPOTHETICAL PERFORMANCE RESULTS HAVE MANY INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. IN FACT, THERE FREQUENTLY ARE SHARP DIFFERENCES BETWEEN HYPOTHETICAL PERFORMANCE RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY ANY PARTICULAR TRADING PROGRAM.

ONE OF THE LIMITATIONS OF HYPOTHETICAL PERFORMANCE RESULTS IS THAT THEY GENERALLY ARE PREPARED WITH THE BENEFIT OF HINDSIGHT. IN ADDITION, HYPOTHETICAL TRADING DOES NOT INVOLVE FINANCIAL RISK, AND NO HYPOTHETICAL TRADING RECORD CAN ACCOUNT COMPLETELY FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THE ABILITY TO WITHSTAND LOSSES OR TO ADHERE TO A PARTICULAR TRADING PROGRAM IN SPITE OF TRADING LOSSES ARE MATERIAL POINTS WHICH ALSO CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS. THERE ARE NUMEROUS OTHER FACTORS RELATED TO THE MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF ANY SPECIFIC TRADING PROGRAM, INCLUDING, WITHOUT LIMITATION, CERTAIN BIASES, WHICH CANNOT BE FULLY ACCOUNTED FOR IN THE PREPARATION OF HYPOTHETICAL PERFORMANCE RESULTS AND ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS.

FORWARD LOOKING STATEMENTS/PROJECTIONS

This presentation may contain certain "forward-looking statements," which may be identified by the use of such words as "believe," "expect," "anticipate," "should," "planned," "estimated," "potential," "outlook," "forecast," "plan" and other similar terms. All such forward-looking statements are conditional and are subject to various known (and unknown) factors which are out of the Fund's control, including, without limitation, general and local economic conditions, changing levels of competition within certain industries and markets, changes in interest rates and availability of leverage, changes in legislation or regulation, and other economic, competitive, governmental, regulatory and technological factors, any or all of which could cause actual results to differ materially from projected results. No representations or warranties are made as to the accuracy of such forward-looking statements. It can be expected that some or all of such forward-looking assumptions will not materialize or will vary significantly from actual results. Accordingly, any projections are only estimates and actual results will differ and may vary substantially from the projections or estimates shown.
